

Startup Guide

Powering On

Press the power button until the mobile internet hotspot display lights up.

Connecting Device to mobile internet hotspot

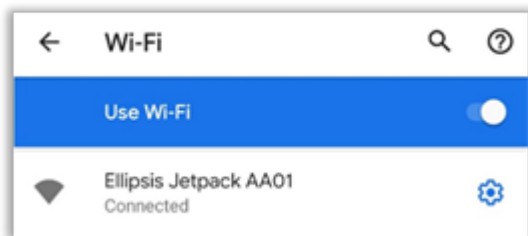

1. To connect to the mobile internet hotspot, open the Wi-Fi settings on your device.
2. Select the mobile internet hotspot name. It will begin with Ellipsis Jetpack.
 - a. Example: Ellipsis Jetpack AA01

3. Enter the device password: **ACPLwifi1895**

4. Select "Connect"
5. Your device should now be connected to the mobile internet hotspot

Powering Off

Once finished using the mobile internet hotspot, press and hold the power button until the "Goodbye" message displays.
